

# 25

# INTERNATIONAL CONFERENCE ON ANTIMICROBIAL COMPUTATIONAL PHARMACOLOGY

- AI FOR ANTIMICROBIALS -

ICAComP 2025 provides a platform for researchers to advance antimicrobial pharmacology through computational approaches, including systems pharmacology, bioinformatics, molecular simulations, machine learning, and network analysis.

**15-17** 

OCTOBER 2025 PRATO, ITALY

# **IMPORTANT DATES 2025**

Abstract submission opens - 20<sup>th</sup> June Submission deadline - 20<sup>th</sup> August Notification of acceptance - 30<sup>th</sup> August

### **REGISTRATION:**

icacomp.org

## TOPICS OF INTEREST

- Bio- & Chemoinformatics
- Systems Pharmacology
- · Artificial Intelligence for Drug Design
- Pharmacometrics
- Virtual Cell including Whole Cell Modelling and Genome-Scale Metabolic Modelling
- Molecular Dynamics Simulations
- · Image-Based Data Analysis
- · Network Analysis and Modelling
- · Epidemiology Modelling
